

**REMARKS**

Claims 2–19 are pending in this application. By this Amendment, claims 8–19 are added. Support for new claims 8–19 can be found, for example, in claims 2–7 and Fig. 3 and the corresponding description of Fig. 3 in the specification. No new matter is added. Applicant respectfully requests consideration and prompt allowance in view of at least the following remarks.

Applicant appreciates the Notice of Allowance mailed July 14, 2008.

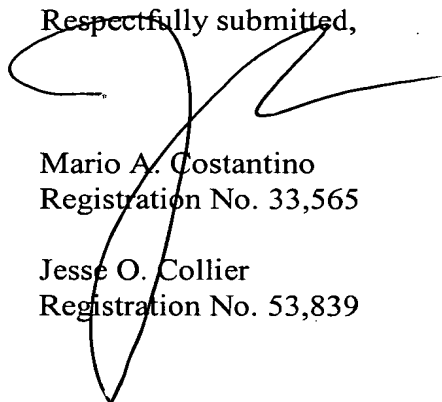

Claims 8–13 are added to specifically recite the structure of a camera to assure that the claims are not interpreted in accordance with means-plus-function construction.

Claims 14–19 are added to recite the method for capturing an image. As process claims 14–19 require all of the limitations of the allowable product claims 2–7, Applicant asserts that claims 14–19 are allowable.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable consideration and prompt allowance of the claims are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,
